

Welcome to Scandinavian Sports Medicine Congress in Copenhagen Feb. 1 – Feb. 3, 2024. <https://www.sportskongres.dk>

Historically, there are between 500-700 participants at the conference. In 2023 over 800 participants took part, mainly participants from Scandinavia and the rest of Europe. This year we expect the same attendance by doctors and physiotherapist.

We are in the process of planning this year's scientific program and expect to announce the full program this fall. We will have 6 parallel sessions and workshops with recognized national and international speakers. All talks are in English. In each parallel session, you will be able to find a topic of interest, no matter if your interest lies with sports orthopedic surgery, sports rehabilitation, sports rheumatology, anti-doping, sports technology, or general practice of sports medicine.

For such an event to become a reality, we need you. We would like to collaborate with you either in relation to a booth or e.g., one of our other sponsors' opportunities:

Official congress partner, break sponsor, lanyard sponsor, sportskongres t-shirt or if you would like to book a private room for a specific number of participants in terms of showing a specific product or demonstration in one of our session rooms

If you see yourself and your company being a part of this exciting congress, you can find further information and registration at the link: <https://www.sportskongres.dk/exhibitors/>

If you have clarifying questions or special requests, they can be directed to Kasper Spoorendonk by email: ks@sportsfysioterapi.dk or by phone: +45 30 89 76 04

Yours sincerely

Kasper Spoorendonk, PT, Danish Society for Sports Physiotherapy (DSSF)
Responsible for exhibiting and sponsoring committees
